## THE TOWN OF HEATH'S COMMUNITY CHOICE POWER SUPPLY PROGRAM

The Town of Heath is announcing the new rate and term for its Community Choice Power Supply Program through its current electricity supplier, **Dynegy Energy Services**. The Town's new aggregation rate is fixed **for all rate classes for 24 months** as follows:

Term	Current Rate (Supply Only)	New Rate (Supply Only)	Renewable Energy Content	
			Required by State*	Voluntary**
December 2024 to December 2026	\$0.10560 per kWh	\$0.12804 per kWh	2024: 62%; 2025: 63%; 2026: 69%	---
<i>[Rate applies to service beginning and ending on the days of the month that your meter is read in your service area. This date varies by account.]</i>				
<i>*Required by State – Mandatory minimum percentage of renewable energy resources required by MA law.</i>				
<i>**Voluntary – Additional renewable energy that exceeds the minimum required by the state in the specified year.</i>				

For comparison purposes, National Grid's Basic Service rates are fixed from August 1, 2024 through January 31, 2025 -- Residential at \$0.16055 per kWh and Commercial at \$0.14823 per kWh.

**No action is required** by individual consumers. All accounts currently enrolled in the Town's Program will continue to see Dynegy printed under the "Supply Services" section of their monthly bill. This rate change will be seen on the January 2025 bills. Consumers with questions about the Program should call Colonial Power Group, the Town's aggregation consultant, at (866) 485-5858 ext. 1.

For more detailed information about the Town's Program, including how to OPT-OUT or OPT-IN, or to access National Grid's Basic Service rates, please visit [colonialpowergroup.com/heath](https://colonialpowergroup.com/heath) or call Dynegy at (866) 220-5696. You may OPT-OUT or OPT-IN at any time in the future with NO CHARGE.

*Basic Service rates change twice a year or more, depending on rate class. As a result, the aggregation rate may not always be lower than the Basic Service rate. The goal of the aggregation is to deliver savings over the life of the Program against National Grid Basic Service. However, future savings cannot be guaranteed.*
