STOCKBRIDGE ANNOUNCES ENERGY PROGRAM START DATE
Notifications mail in mid-February. Program will lower electricity costs and offer environmental benefits.

STOCKBRIDGE, MA – The Town of Stockbridge is pleased to announce that it's launching its Community Choice Power Supply Program this spring to provide an energy program that is stable, affordable and incorporates additional renewable energy. Stockbridge signed a 7-month contract with Direct Energy Services.

Beginning with the April 2025 meter reads, Stockbridge's Program will offer three products with varying amounts of renewable energy content. "Our electricity program allows us to reduce our dependence on non-renewable energy sources and decrease our carbon emissions, while also lowering electricity bills," said Michael Canales, Stockbridge Town Administrator.

Product	Renewable Energy Content	Program Rate (per kWh)	National Grid Rate* (per kWh)	% Savings	Est Monthly Savings
Standard (default)	25% MA Class I RECs above minimum state requirements	\$0.12290	\$0.14672	16%	\$14
Optional Green 50	50% MA Class I RECs above minimum state requirements	\$0.13360	\$0.14672	9%	\$8
Optional Green 100	100% MA Class I RECs	\$0.14330	\$0.14672	2%	\$2

*National Grid's Residential Basic Service meets MA renewable energy requirements and is in effect from February 1-July 31, 2025. Assuming usage of 600-kilowatt hours of electricity per month, residents can expect to see an average savings for that period.

When this contract ends in November 2025, the Town will explore the possibility of joining with 17 other Berkshire County communities in negotiating new terms for their energy program which has been active since 2014.

The Stockbridge Community Choice Power Supply Program is a municipal aggregation program which, according to Massachusetts law (M.G.L. c. 164, § 134), enables local government to combine the purchasing power of its residents and businesses so that it can provide them with an alternative electricity supply. Approximately 190 Massachusetts communities, to date, have chosen to develop community choice electricity programs to benefit their residents and small business owners.

Residents will not notice any change in their electricity service. The only discernible difference will be that Direct Energy will be printed under “Supply Services” on National Grid’s monthly bills starting in May 2025. Residents and small business owners will continue to receive one bill from National Grid and to send payments to National Grid for processing. There will be no interruption in billing, power, or customer service.

No action is required by ratepayers to participate in this cost-saving program. The Program will be operated on an opt-out basis, meaning that all Stockbridge residential and business customers currently on National Grid’s Basic Service will be automatically enrolled into the Program unless they choose to opt-out.

There are no enrollment, early termination, or cancellation fees attached to the Stockbridge electricity program. Residents who choose to opt-out can also opt-in at a later date if they so choose at no cost. However, anyone switching from a contract with a third-party supplier may be subject to penalties or early termination fees charged by that supplier. Ratepayers should verify terms before switching.

Basic Service rates change twice a year or more, depending on rate class. As a result, the aggregation rate may not always be lower than the Basic Service rate. The goal of the aggregation is to deliver savings over the life of the program against National Grid’s Basic Service. However, future savings cannot be guaranteed.

Residents or business owners with a supplier block on their account must contact National Grid to request that the block be removed if they want to participate in Stockbridge’s electricity program.

National Grid has several programs to help income-eligible families and customers needing special assistance meet their energy needs. To learn more visit nationalgridus.com/MA-Home/Bill-Help/Payment-Assistance-Programs.

An information session to answer questions about Stockbridge’s Community Choice Power Supply Program will be held by the Town and representatives of Colonial Power Group as follows:

- Thursday, March 13, 2025 at 6 pm at Town Hall, 50 Main Street, Stockbridge, MA

Residents may also visit colonialpowergroup.com/stockbridge or call (866) 485-5858 ext. 1 to learn more about Stockbridge's Community Choice Power Supply Program, to opt-in or opt-out, or to change your product selection.
