Optional Green 100	\$0.17896 per kWh	\$0.16120 per kWh	100% MA Class I RECs

<i>[Rates apply to service beginning and ending on the days of the month that your meter is read in your service area. This date varies by account.]</i>			
<i>*For a detailed breakdown of MA renewable energy requirements by year, please visit colonialpowergroup.com/massachusetts-renewable-energy-requirement.</i>			

For comparison purposes, Eversource's Basic Service rates are fixed from August 1, 2025 through January 31, 2026 -- Residential at \$0.14884 per kWh and Small Commercial & Industrial at \$0.15150 per kWh. Eversource's Basic Service rates will change on February 1, 2026.

No action is required by individual consumers. All accounts currently enrolled in the Town's Program will continue to see Dynegy printed under the "Supplier Services" section of their monthly bill. This rate change will be seen on the February 2026 bills. Consumers with questions about the Program should call Colonial Power Group, the Town's aggregation consultant, at (866) 485-5858 ext. 1.

For more detailed information about the Town's Program, including how to OPT-OUT or OPT-IN, to change your current product selection, or to access Eversource's Basic Service rates, please visit colonialpowergroup.com/carlisle or call Dynegy at (866) 220-5696. You may OPT-OUT or OPT-IN at any time in the future with NO CHARGE.

Basic Service rates change twice a year or more, depending on rate class. As a result, the aggregation rate may not always be lower than the Basic Service rate. The goal of the standard (default) offering is to maximize the percentage of renewable energy content while ensuring that its price doesn't exceed the Eversource Basic Service rate over the duration of the Program. However, future savings cannot be guaranteed.
